Competent substantial evidence is such evidence, as a reasonable mind would accept as adequate to support a conclusion. There must be a factual basis in the record to support opinion testimony from both expert and non-expert witnesses. Persons presenting testimony may rely on factual information that they present, that is presented by County staff, that the applicant presented, or on factual information included in the County staff report to support their testimony.

Ms. Torres further stated that all persons wishing to participate and speak on an issue at the public hearing would be sworn in prior to speaking during this proceeding. All persons will have the right, through the Chair, to ask questions, seek clarification of comments made and to respond to the comments or presentations of staff or other speakers; or to refute or respond to any ex-parte communication. All persons who present written materials to Commissioners for consideration must ensure that a copy of such materials is provided to the Clerk for inclusion in the Board's record of proceedings and official minutes.

Deputy Clerk Bob Decker asked if any Commissioner had received oral or written communication regarding the items. Mr. Decker requested that Commissioners disclose the substance of the communication and identify the person(s) making the communications(s).
