Commissioner Hutchinson stated that he would like to partner with Union County regarding grant opportunities for recreational trails. He stated that the area is close to having several hundreds of miles of trails connected and all that is missing is a few segments. There is a missing segment in Union County to link a trail from Alachua County to Union County and he feels there is a great opportunity for both Counties to seek grants to complete the trail.

Chair Cornell thanked the Union County Commission for hosting the meeting and advised them that Alachua County is willing to offer any assistance it can in regards to the Phosphate Mine application.

There being no further business before the Board the meeting was adjourned at 6:23 p.m.
